Blue Bird
PLANT PAT. NO. 1739
ASEXUAL REPRODUCTION OF THIS PATENTED PLANT WITHOUT LICENSE IS PROHIBITED

FINE NEW ALTHEA

Blue Bird

You will welcome this glorious newcomer to the small and choice list of colorful, **all-summer** flowering shrubs. Lovely, 5-inch flowers are very showy and stand out like pert blue saucers.

Reports from coast to coast are enthusiastically praising **Blue Bird** as the finest summer flowering shrub offered in the past ten years.

Here are a few excerpts from comments recently appearing in GARDENERS FORUM by eminent and well recognized horticultural authorities:

Mr. B. Y. Morrison said:—
"The flowers are of good size, open widely so the face is broad, the color is definitely a lavender-blue and there is no sickly shading of mauve from the eye, at the base of the staminal column which is pure white and makes a fine contrast with the color of the corolla. Certainly, any one who is loooking for a companion plant to the summer blooming buddleias and the handsome form of **Vitex** commonly called "Macrophylla" should consider this shrub."

Dr. Donald R. Egolf reports:—
"**Blue Bird** is an outstanding ornamental with lavender-blue flowers worthy of extensive cultivation."

Dr. John C. Wister comments:—
"I agree with Mr. Morrison that the variety **Blue Bird** is a great acquisition. It is a lovely color and a free bloomer and a plant that I feel deserves wide distribution."

And . . . our customers send us reports like this one from "The Wagoner Nurseries" of Hutchinson, Kansas.
"Please book our order for 20 Althea Blue Bird P. P. 1739. We bought 10 from you last year and they went through 7 below zero on the outside. We recently moved one into the greenhouse to see if there was winter injury, and we found they were not hurt in the least. They leafed out to the very tip. We think this is one of the most outstanding shrubs." Signed C. D. "Bill" Wagoner.

A lovely companion plant

ALTHEA

R.
Smith

WHITE ALTHEA

Wm. R. Smith

This is one of the most desirable of the **all-summer** flowering shrubs. Its large, sparkling white, disc-like flowers continue to bloom from June through September. You will find **Wm. R. Smith** is a fine companion to our fabulous new **Blue Bird** since the colors complement each other while the plants are similar in form and habit.

Better Subjects from . . .

SPIREA NIPPONICA, Snowmound

SPIREA NIPPONICA
Snowmound

This is one of the most delightful of all spring flowering shrubs. Small clusters of glistening white flowers completely cover the graceful, arching branches. **Snowmound** is particularly outstanding for its nice, rounded bushy habit . . . an improved selection of Spirea Nipponica.

LONICERA TATARICA, Arnold Red

LONICERA TATARICA
Arnold Red

Here is just the shrub you have been looking for. Without question it is one of the best for exposed and really cold locations. It is extremely hardy, withstanding cold blasts of wind, unaffected by sun or shade and is not particular about soil. Plants are of medium size with dense, handsome foliage. In early spring, the bush is covered from top to bottom with thousands of lovely red flowers transforming the plant into a brilliant red mound.

New ALTHEA, Blue Bird

(Plant Pat. 1739)

ALTHEA Blue Bird PLANT PAT. NO. 1739 ASEXUAL REPRODUCTION OF THIS PATENTED PLANT WITHOUT LICENSE IS PROHIBITED

Blue Bird

Stunning in shrub plantings or as a specimen. **Blue Bird** is vigorous in growth, upright in habit and blooms prolifically from early summer until frost.

Acer platanoides schwedleri nigra

Robin Hood (Pemb. 27)

NEW HEDGE ROSE Robin Hood

Robin Hood is the most remarkable and beautiful hedge Rose ever offered. A delightful Musk Rose hybrid that has everything. In spring, blazing clusters of brilliant cherry-red flowers completely cover the healthy, deep green foliage. Continues to bloom attractively all summer and fall. For small or large gardens, these densely compact plants are unexcelled. Do not confuse **Robin Hood** with the rampant-growing, poor flowering, much overrated Multiflora Rose.

Robin Hood

The hedge illustrated at the right is a three-year-old test planting which has, with no winter protection, withstood below zero temperatures without injury. **Robin Hood** is a hedge rose of unusual merit particularly to small property owners who just cannot use the rampant growing Multiflora Rose.

Robin Hood is strongly resistant to most common rose ailments . . . is not particular as to soil . . . blooms early in the season and continues until frost. It may be left unattended, pruned to any desired height over three feet, or cut back to the ground in the fall or spring.

VIBURNUM, Carlesii

TAMARIX, Pink Cascade (Plant Pat. No. 1275)

HYPERICUM, Hidcote

HYPERICUM
Hidcote

Hidcote is a gem of a plant for foreground planting where a twiggy shrub about 18 inches tall is desired. This superb import from the famous Hidcote estate in England is covered with bright yellow, cup-like flowers about 2-inches in diameter. Fragrant flowers appear in mid to late June and continue throughout the summer until mid-October. In the warmer sections of the country, it will attain a height of 3 to 4 feet.

VIBURNUM
Sweet Scented Carlesii

A light, delicate, spicy fragrance from blossoms tinted a delicate pink. Commonly called the Pink Snowball, this unusual shrub is covered from top to bottom with heavenly scented flowers brushed lightly with pink . . . the insides a snowwhite. A well shaped, bushy shrub 5 to 6 feet tall and just as wide, it branches lazily to the ground. In the fall, deep green foliage takes on a bronze-red cast.

TAMARIX
Pink Cascade

This charming introduction from England is a very valuable shrub because it produces masses of cascading panicles of flesh-pink flowers in late summer when very few shrubs are in bloom. Handsome, rich blue-green foliage. Excellent for seashore planting.
